

Introduction to the 2010-11 CSRDE Main Retention Survey for 4-year Institutions

* **See note below concerning changes to the survey**

This survey workbook consists of eight individual worksheets. Review carefully the Instructions, Definitions, and Documentation tabs before completing the survey. **Note: The Definitions and Documentation tabs are at the end of the workbook.**

Please complete Section I, Characteristics, and Checklist.

The "Alert Check" and "Rate Alert Check(Gender)" tabs are for you to use in checking your data. Be sure to review any alert messages that appear on those worksheets and make any necessary corrections to the Section I worksheet. Once you have made your changes, complete the Section I Checklist, then upload the completed survey into your "Drop Box" on the CSRDE secure website by **March 25, 2011**. To get to the secure website, go to <http://csrde.ou.edu> and then click on "members only login" at the top right.

To complete the survey, please begin by reviewing the Instructions, Definitions, and Documentation. Thank you.

***** IMPORTANT NOTE ABOUT CHANGES TO THE SURVEY *****

See note in the Definitions tab concerning the new Race/Ethnicity Definitions.

The CSRDE Advisors have recommended that we add the following rates to our data collection:

- **Academic Calendar information has been added to the Characteristics tab.**

OPTIONAL THIS YEAR (2010-11)

Required in 2011-12:

10th year graduation rates and 11th year continuation rates.

Instructions 2010-11 CSRDE Retention Survey

1. To use this webform, first download the Excel file to your computer, complete the survey, then upload the completed file into the "Drop Box" on the CSRDE secure website.
2. The survey data sheets have been password protected to ensure consistency in column width, data format and other file structures. To unprotect the data entry sheets for Section I, use the password: **csrde**
(Tools => Protection => Unprotect sheet => Password: csrde)
Please **DO NOT** change these sheets by inserting rows or changing formats.
3. The descriptions of flagged cells will be displayed in full by placing the cursor over the red triangles.

If you have a flat ASCII file which contains the data, you can easily import it into an Excel spreadsheet and then copy it into Section I. Be sure to use the "paste special" and "paste values" options when pasting into the sheet in order to preserve the formatting. This is critical!

Tips For Completing CSRDE Main Retention Survey

I. Check that all components are completed before submitting to CSRDE:

1. Section I Survey
2. Section I Characteristics
3. Section I Checklist

II. Section I Survey

1. Fill in all cells for each cohort year and type if headcount is greater than zero (0). If headcount is zero (0), enter zero (0) in the headcount column, and leave the other cells blank. (Please do not put N/A)
2. For each cohort year, Male Headcount + Female Headcount should equal Total Headcount. If undeclared/unknown gender, please note on Checklist.
3. The sum of ethnic subgroups should be equal to the Total cohorts.
4. Continuation rates should be lower than or equal to the previous year's rates. If it is higher due to stop-outs or other reason such as allowable exclusions, please note on the checklist.
5. Graduation rates are cumulative and should be progressively higher or the same as the previous year's rates.
6. Continuation rates + graduation rates for any given year must be 100% or less. For example: graduated in 4 years + continued to 5th year rates cannot be greater than 100%.
7. A yellow box will appear around any rate that is over 100%. Check for a typo if this occurs.

III. Section I Characteristics

1. Enter data for Fall 2004 and Fall 2009.
2. Total Headcount Enrollment includes all students, not just first-time, full-time, degree-seeking freshmen.
3. Total Undergraduates (2.e.) is calculated from the data entered in (a. + b.) and (c. + d.). If total is incorrect, check data in (a. and b.) and (c. and d.). All cells should have an entry, even if it is zero (0).
4. ACT/SAT scores are used to determine institution selectivity. Report the test score that is used by the majority of your freshmen, not just first-time, full-time, degree-seeking freshmen, for purposes of admission. If reporting SAT scores, do not include the Writing score. If both test scores are reported, ACT will be used.
5. If a value is out of range a yellow box will appear around the value. Check for a typo if this occurs.
6. Question #5 should only include federal grants, not all financial aid.
7. Save your file after entering the data to ensure that the values are calculated in # 2 and # 4.

IV. Alert Checks

1. After entering all of your data in Section 1 and saving the file, review "Alert Check" and "Rate Alert Check(Gender)" worksheets for possible errors in your Section I data. Make corrections to Section I worksheet as necessary.

V. Section I Checklist

1. After reviewing the alert worksheets and making any necessary changes to Section I, please complete the Section I Checklist before uploading the file to the CSRDE website.

Comments:

UNLV implemented the new race/ethnicity definitions beginning with the Fall 2009 cohort. As such, data reported for this cohort reflect the new definitions.

2010-11 CSRDE Retention Survey

1. Timing Definition

The definition of "a year" for this survey is the 12-month period from the beginning of a fall term in one year to the beginning of the following fall term. The fall enrollment status is based on the official reporting date for the IPEDS fall enrollment report.

2. First-time Freshman (See IPEDS definition)

"An entering freshman who has never attended any college. Includes students enrolled in the fall term who attended for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school)."
Report **only full-time, baccalaureate degree-seeking**, first-time freshmen in this survey.

3. ACT or SAT Columns

For the ACT/SAT columns, report either ACT or SAT score, whichever is used by the majority of freshmen for admission purposes. If reporting SAT, provide composite scores without the Writing score being included.

4. Ethnic Groups: The CSRDE office has been closely following the changes on Race and Ethnicity definitions being phased into the IPEDS surveys, and in particular the Fall Enrollment (which contains Retention Reporting) and the GRS. With the assistance of our Advisory Board (who are leaders in IR), consultations with the staff of National Center for Education Statistics-IPEDS, and suggestions from colleagues at the Association for Institutional Research we have identified a methodology which maintains the integrity of our longitudinal data and minimizes conditions which would negatively impact your ability to conduct benchmarking.

Guidelines: A student's enrollment and graduation data must be wholly reflected in a single Race/Ethnicity cohort. If a student's R/E status needs to be corrected, the headcount, ACT/SAT, and the retention and graduation rates for both the incorrect and correct sub-cohorts must be recalculated.

IMPORTANT NOTE: All cohorts that use the old IPEDS definitions must continue to use the old IPEDS definitions throughout the life of the cohort (through 10th year graduation and 11th year continuation).

A. Fall Cohort of 2000 through the Cohort of 2007.

Please use the historical Race and Ethnicity categories used by IPEDS and the CSRDE as shown below.

Black, Non-Hispanic

"A person having origins in any of the black racial groups of Africa (except those of Hispanic origin)."

Hispanic

"A person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin, regardless of race."

Asian or Pacific Islander

"A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or Pacific Islands."

American Indian or Alaskan Native

"A person having origins in any of the original peoples of North America or who maintains cultural identification through tribal affiliation or community recognition."

White, Non-Hispanic

"A person having origins in any of the original peoples of Europe, North Africa, or the Middle East."

Nonresident Alien

"A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely."

Unknown/Other

"Individual who did not respond or whose response does not fit into the categories above."

...maintain the data reported on these responses above into the categories above.

B. Fall Cohorts of 2008 and 2009. The CSRDE recommends the use of the definitions above for the Fall 2008 and Fall 2009 cohorts.

C. Transitional Reporting on Fall 2008 and Fall 2009 Cohorts where new IPEDS R/E has been implemented.

IPEDS instructions for reporting race/ethnicity on the Fall 2008 and 2009 Cohorts gave institutions the option of reporting using the "New Definitions". In the 2009-2010 CSRDE survey, 99% of participants used the standard definitions.

For the purposes of consistency, we strongly encourage you to report the ethnicity of the Fall 2008 and Fall 2009 Cohorts using the historical definitions listed above.

However, if your institution implemented the new definitions with the Fall 2008 or Fall 2009 cohort, and you intend to use those definitions for the Fall 2008 and/or 2009 CSRDE First-time, Full-time Cohort, please make a documentation note in the comments on the checklist tab. Be sure to include data for the Hawaiian and Multi-racial groups (see definitions below). If you have no students in those categories report zero (0) for the headcount. In the row for the Fall 2008 and/or Fall 2009 Asian subcohort, you would report only those students falling into the new Asian grouping (which excludes Hawaiians). The sum of the headcounts for all of your ethnic groups, including Unknown, for the Fall Cohort of 2008 and Fall Cohort of 2009 should equal the Total Cohort headcount for 2008 and 2009.

The definitions below should only be used for the 2008 and 2009 cohorts if your institution implemented the new R/E definitions for those cohorts.

Black or African American - "A person having origins in any of the black racial groups of Africa."

Hispanic or Latino - "A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race."

Asian - "A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian Subcontinent, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam."

American Indian or Alaska Native - "A person having origins in any of the original peoples of North and South America (including Central America) who maintains cultural identification through tribal affiliation or community attachment."

White - "A person having origins in any of the original peoples of Europe, the Middle East, or North Africa."

Nonresident Alien - "A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely."

Native Hawaiian or Other Pacific Islander – "A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands."

Unknown/Other Ethnicity – "A person who did not select EITHER a racial or ethnicity designation."

Multi-racial – Those individuals that self identify in two or more racial categories. As defined by IPEDS, if an individual chooses Hispanic as their ethnic group, they will not be included in the multi-racial category.

The CSRDE will require the new R/E definitions for the 2010 cohort in the 2011-2012 survey

The CONDE will require the new N/E definitions for the 2010 cohort in the 2011-2012 survey.

5. Continuation Rates

Continuation rate is the percentage of first-time, full-time freshmen in a given fall term who returned to the institution in a subsequent fall term. For example, the "continued to 3rd year" rate for fall 2003 first-time freshmen is the percentage of fall 2003 first-time freshmen who returned for fall 2005. The calculation of continuation rate does not include students who returned to the institution after having graduated from the same institution. For specific time points for reporting, see 2010-11 Survey Documentation Form.

Reminder: As is the convention with IPEDS, data used for these calculations may be adjusted for students who departed for the following reasons: deceased, permanently disabled, or joined the armed forces (including those called to active duty from the Reserves or National Guard) or foreign aid service of the federal government or official church missions. These are exclusions, and may be subtracted from the cohort prior to calculating the continuation rate. Example: Number in cohort who continued to 3rd year / (cohort headcount - the allowable exclusions).

6. Cumulative Graduation Rates

Graduation rate is the cumulative percentage of first-time, full-time freshmen in a given fall term who graduated within a designated period of time. For example, the "graduated in five years" rate for fall 2003 first-time freshmen is the percentage of fall 2003 first-time freshmen who graduated from the institution by the fall 2008 term, including those students who completed their courses during the summer of 2008. For specific time points for reporting, see 2010-11 Survey Documentation Form.

Reminder: As is the convention with IPEDS, data used for these calculations may be adjusted for students who departed for the following reasons: deceased, permanently disabled, or joined the armed forces (including those called to active duty from the Reserves or National Guard) or foreign aid service of the federal government or official church missions. These are exclusions, and may be subtracted from the cohort prior to calculating the graduation rate. Example: Number in cohort who graduated within 4 years / (cohort headcount - the allowable exclusions). Students who leave for these reasons, but return before the IPEDS status date of August 31 in the year in which the graduation rate is being calculated, may be subtracted from the cohort when calculating the graduation rate.

Please note: The headcount in Section I column D must stay the same even if a retention or graduation rate is calculated based on exclusions.
